COMPANY ²⁰²⁵ PROFILE

Proudly protecting people and properties through our armed and unarmed security services.

Canadian Business Excellence Award

We are proud to announce that G Force Security has been awarded the 2024 Canadian Business Excellence Award for Private Businesses. As trusted partners of TCA, ACOMO 2000, and CCI Toronto, this accolade highlights our dedication to excellence, cutting-edge technology, and meaningful community engagement. With a focus on sustainability and innovation, we are introducing advanced services that redefine safety standards while embracing sustainability and innovation.

Our Security Services

- Office & Facilities Security
- Concierge & Condo Security
- Neighborhood Watch Service
- Warehouse Security
- Long Term Patient Care
- Static & Patrol Security
- Retail & Mall Security
- Construction Security
- Parking Enforcement
- Fire Watch Guard
- Event Security Services
- Loss Prevention Services

03

Long Term Healthcare Security for Patients and Staff

Our security guards enforce patient safety by managing access, preventing unauthorized visitors, and ensuring patients don't leave without clearance. They patrol high-risk areas like medication storage and emergency exits.

In behavioral health and elderly care units, they help de-escalate situations and assist staff with non-medical interventions. During emergencies, they provide first-response assistance, operate AEDs, and direct emergency services to critical areas.

Warehouse Security

Theft Prevention and Inventory Protection

Our warehouse security teams enforce strict entry and exit protocols, verifying employee credentials and recording all incoming and outgoing shipments. They oversee loading dock security, ensuring that only authorized personnel handle high-value goods. To combat internal theft, they conduct random employee bag checks and monitor inventory movement using RFID tracking integration. Guards perform scheduled perimeter sweeps, checking for potential break-in points and ensuring all access doors remain secured after operational hours. They also respond to alarms, investigate suspicious activities in real-time, and work closely with warehouse managers to prevent inventory shrinkage.

Plaza & Facility Security

Proactive Crime Prevention and Emergency Handling

In high-traffic plazas and commercial spaces, our security personnel maintain visibility through strategic patrols, deterring theft, vandalism, and loitering. They enforce property rules, ensuring store owners and tenants can operate without disruptions. In parking lots, they monitor for suspicious vehicles, provide safety escorts, and respond to distress calls. In the event of an incident, such as a shoplifting attempt or disorderly conduct, they intervene immediately, documenting the situation and coordinating with law enforcement if necessary. At night, they conduct final security checks, ensuring all storefronts are locked and alarm systems are set before closing.

Concierge & Condo Security

Controlled Access and Professional Oversight

Our security staff ensures only authorized individuals enter residential buildings, verifying residents and guests, maintaining visitor logs, and screening deliveries. They monitor underground parking for suspicious activity, enforce regulations, and provide escorts when needed. Routine patrols cover lobbies, elevators, and shared spaces to prevent unauthorized access or disturbances. In emergencies like fire alarms or distress calls, they initiate safety protocols and coordinate with management and emergency responders.

Highlights of Key Developments

Community Support Through New Initiatives

Giving back to the community remains a priority for G Force Security. In addition to our ongoing partnerships with King Sip and Savour and Indigenous businesses, we are proud to launch a new food drive to support families in need.

Enhanced Training Program for Industry Excellence

Our 33.5-hour enhanced training program equips security guards with advanced skills in conflict resolution, legal compliance, and emergency response. Through hands-on training and real-world scenarios, they develop critical thinking, quick decision-making, and effective communication to handle high-pressure situations with confidence and professionalism.

AI Analytics Transforming Security Operations

The latest advancements in artificial intelligence are unlocking new opportunities for security.

Green Security

At G Force Security, we prioritize sustainability by integrating eco-friendly solutions into our operations. Our fleet includes electric cars, hybrid patrol vehicles, and e-scooters, allowing us to provide efficient security coverage while reducing our environmental footprint. We have also implemented paperless reporting systems and energy-efficient technologies in our offices to minimize waste and optimize resource consumption.

Raven Devices

We utilize Raven Devices to enhance the effectiveness of our security teams. These advanced wearable devices provide real-time data integration, encrypted communication, GPS tracking, and AI-enhanced reporting. By equipping our guards with these tools, we ensure seamless connectivity, improved situational awareness, and faster response times in any security situation.

Drone Patrolling

Elevating Security to New Heights

G Force Security is proud to incorporate drone technology into our suite of advanced security services. Drones offer unparalleled surveillance capabilities, providing aerial views that enhance perimeter security, monitor large or hard-to-access areas, and deliver real-time video feeds to our operations center.

Equipped with high-definition cameras and thermal imaging, our drones are designed to detect and track suspicious activities, even in low-visibility conditions. These features enable faster threat identification and immediate response, reducing risks and ensuring comprehensive coverage.

Our Advanced Guard Monitoring System

See "who and where" in real time

Immediate updates & verification on incidents and patrolling

Observe everything the way you want

See the progress of every shift

Increase effectiveness through data

Respond faster to emergencies

Client Testimonials
